

Office of the State Transport Commissioner, Punjab, Chandigarh

GAP Identification in Public Transport Network.

The office of the undersigned has been receiving various representations for enhancement of Public Transport on various routes/areas from public representatives as well as public at large.

Providing access of Public Transport to each citizen at a reasonable distance and affordable price is an important factor to raise the standard of living, reduce congestion on roads and control pollution.

It is more than a decade since any such exercise has been carried out and the office of the undersigned is in the process of consolidating such requests and make a detailed internal assessment exercise.

Accordingly suggestion are invited from the public at large and prospective operators for operation of buses with seating capacity of 39 or more on potential new routes and for addition of more services on the existing routes etc. by 31.03.2020. Suggestions may be submitted on www.punjabtransport.org

State Transport Commissioner,
